

# PUBLIC FACILITATION ESSENTIALS

3-DAY WORKSHOP - DENVER, COLORADO 2019

A FRESH NEW HANDS-ON FACILITATION WORKSHOP | 8:00 AM - 5:00 PM Lunch Included

## PUBLIC FACILITATION ESSENTIALS

What is public facilitation?

Facilitators support groups of people, helping to ensure they can accomplish their work together. Facilitating public processes is not the same as facilitating internal meetings. Everyone under the sun is invited, they come from tremendously diverse backgrounds, and they may not even support the organizations' mission. In a democracy, they have the right to their opinions. Understanding their perspectives is essential to developing sound public policy and sustainable public decisions. But facilitating their engagement in a public meeting is not easy!

Public participation practitioners are often expected to facilitate public events, but many have not been provided and adequate opportunity to learn how to facilitate. We don't want to practice with real participants, after all!

Building on best practices from both the International Association of Facilitators and the International Association of Facilitators, this three day course introduces the essentials of facilitation in the public arena. Participants learn how to design and conduct successful facilitated public involvement events. It covers essential facilitation skills and basic methods for generating, organizing, and ranking ideas as well as for helping people to think together. Most importantly, it provides a safe environment to PRACTICE those facilitation skills.
